On this joyful step of the Kindermuisk journey you'll watch your child's delight in the imaginative, musical, and movement oriented experiences. You will love seeing the confidence, independence, excitement, friendships, and learning this class inspires. Although this may be your child's first experience without you in the room you can rest assured that he or she will thrive in our small group atmosphere with a caring and present teacher.

You'll find...

- Children learn to focus and practice being part of a group in a safe, loving place where each personality is celebrated and welcomed
- Creative and imaginative play jumpstarts learning and builds those brains
- High quality music experiences prepare children to be better all-around learners and spark musicianship
- Singing becomes a natural language and a catalyst for joy
- Coming to class on their own promotes friendships and builds self-confidence
- You'll continue to develop a stronger bond with your little one as you join him or her for the end of every class.

LEVEL 3

3 years - 4 years

You'll love that grown-ups are invited to participate in the last few minutes of each class. You'll want to arrive on time as your child will need your support during our musical sharing time where you'll learn about our special instrument of the week and our musical term of the week. You'll also love that our Kindermuisk Home Materials grow with your child as you discover stories, activities, and music to share at home with your Little Music Maker.
