LEVEL 4

This delightful drop-off class is just for our older preschoolers who are ready and eager for more musical experiences along with an introduction to the keyboard. On this step of the Kindermusik journey we discover how to interact imaginatively with the keyboard - in a developmentally appropriate way - as we allow your child's musicality to unfold in an atmosphere of exploration and joy rather than pushing ahead too quickly. We also experience an instrument of the month where children interact with instruments such as the ukulele, recorder, xylophone and more.

4 years - 5 years

You'll find...

Keyboard exploration provides more musical concepts and more growth

Your child will thrive as we lay the foundation for instrument play, tune her ear, and help him become a better all-around learner

We help to prepare your child for Kindergarten and lay the groundwork for our Level 5 instrument and piano preparation class - a class that will propel your child to the next step in music education

All this while nurturing a natural love of music, encouraging imagination, practicing social skills, growing independence and giving you a peek into our musical environment during the sharing time at the end of each class

You'll love fostering your child's understanding of musical concepts and encouraging interest and excitement about the keyboard and other "big" instruments. You'll love seeing your child's confidence and independence grow. You'll love hearing your child joyfully sing through the day. You'll also love that our Kindermusik Home Materials continue to grow with your child as you prepare for the final step on the Kindermusik journey - Level 5 - and the two year experience of Kindermusik for the Young Child.
